INTRODUCES THE ULTIMATE MOONTAILS

The Ultimate MoonTails

Press release

The Ultimate MoonTails are building on the strengths of the original MoonTails. With an already perfect recipe some extra ingredients were thrown into the mix and a whole different dish is being presented. The icing on the cake are the fabulous Majestic RCA connectors from Bocchino Audio Technologies of Australia. They give the MoonTails an aesthetic boost while the sound approaches that of Jade Audio's top of the range cables. These interconnects rightly deserve their place on the upper echelons of affordable high-end.
